Certification:

	Answer
1. **Was your hospital allowed to retain 100% of the DSH payment it received for this DSH year? Matching the federal share with an IGT/CPE is not a basis for answering this question "no". If your hospital was not allowed to retain 100% of its DSH payments, please explain what circumstances were present that prevented the hospital from retaining its payments.**	No

Explanation for "No" answers: During the preparation of the DSH Year 2018 Survey, Part I indicated that SGMC - Lanier did not maintain 2 OB or physicians that would provide services to Medicaid patients, due to a misunderstanding of the question. Because the error was not discovered until after the allocation had occurred and had been communicated to all participants, the SGMC - Lanier was forced to return the interim payment even though otherwise eligible to receive the full allocation.

The following certification is to be completed by the hospital's CEO or CFO:

I hereby certify that the information in Sections A, B, C, D, E, F, G, H, I, J, K and L of the DSH Survey files are true and accurate to the best of our ability, and supported by the financial and other records of the hospital. All Medicaid eligible patients, including those who have private insurance coverage, have been reported on the DSH survey regardless of whether the hospital received payment on the claim. I understand that this information will be used to determine the Medicaid program's compliance with federal Disproportionate Share Hospital (DSH) eligibility and payments provisions. Detailed support exists for all amounts reported in the survey. These records will be retained for a period of not less than 5 years following the due date of the survey, and will be made available for inspection when requested.

L. Provider Tax Assessment Reconciliation / Adjustment

An adjustment is necessary to properly reflect the Medicaid and uninsured share of the provider tax assessment for some hospitals. The Medicaid and uninsured share of the provider tax assessment collected is an allowable cost in determining hospital-specific DSH limits and, therefore, can be included in the DSH examination survey. However, depending on how your hospital reports it on the Medicare cost report, an adjustment may be necessary to ensure the cost is properly reflected in determining your hospital-specific DSH limit. For instance, if your hospital removed part or all of the provider tax assessment on the Medicare cost report, the full amount of the provider tax assessment would not have been apportioned to the various payers through the step down allocation process, resulting in the Medicaid and uninsured share being understated in determining the hospital-specific DSH limit. If your hospital needs to make an adjustment for the Medicaid and uninsured share of the provider tax assessment, please fill out the reconciliation below, and submit the supporting general ledger entries and other supporting documentation to Myers and Stauffer, LC along with your hospital's DSH examination surveys.
